

Table 1 Main teaching contents

	Sensorimotor activity period	In and out activity period	Discrimination activity period	Framed block construction activity period	Free Construction activity period
Pass age of children developed typically	~0:10	0:10~1:6	1:6~2:6	2:6~4:6	4:6~6:0
Age of target child	1:10~2:4	2:5~3:5	3:6~4:4	4:5~5:5	5:6~6:1
【Sensorimotor activity】	 Light and vibration Music box car Metallophone	 ball dropping magneaf Rassel-turm Rain stick			
【In and out activity】	 palo Sliding block	 Kugelburn Puzzle Box ball and Cylinder Disk matching Trei kugel tower cylinder block task	 Puzzle Box Quadratic prism and triangular prism put a Coin Three-dimensional shape matching		
【Put and pulled out activity】		 Put a cylinder on the rod	 Put a cylinder on the rod	 Pass through a string	
【Discrimination activity】		 Discrimination in puzzle box	 Discrimination of round triangle squares Cup piling Discrimination in puzzle box Discrimination of cylinder pencil		
【Framed block construction activity】			 cella Cube and rectangular parallelepiped puzzle	 Construction of rectangle Stick of number concept Large box Framed block puzzles construction task Construction of three-dimensional	 Framed block puzzles construction task
【Free Construction activity】				 Cube Construction task block	 Cube construction Cubicus Blockimitation
【Tactile movement control】					 Line tracing maze Length comparison Tactile Shape search Find empty squares Search for changed parts
How to use both hands Tactile observation	• Search with one hand	• Search with both hands • Operation with one hand • Discovery of direction	• Cooperative separation of both hands • Orient the object • Discriminate shape with palm	• Stack (construction task) • Slide parts and bring them • Measure the space by hand • Replace parts	《construction task》 • Compare and reference sample and composition

【Maker】
 Palo: LECCIO (Italy)
 Rassel-turm: nic (Deutschland)
 magneaf, cella, Cubicus: naef (Switzerland)
 Trei kugel tower, Kugelburn: BECK (Deutschland)
 Put a cylinder on the rod: Grimm's Spiel & Holz Design (Deutschland)
 Cup piling: Combi
