

Stig sin kommunikasjonsbok

Stig sin kommunikasjonsbok.

Stig er glad gutt på 5 år. Stig har store sammensatte læreversker. Han har ikke noe form for talespråk. Men han bruker en del lyder og masse kroppsspråk for å gjøre seg forstått. Han forstår en del av det som blir sagt til ham. Han forstår i tillegg noen håndtegn.

Dette er han første kommunikasjonsbok. Vi har valgt en temabasert bok i første omgang, siden vi er usikre på hvor mye Stig forstår og tolker ut av det symbolene viser. Vi vet at han tolker en del symboler ut fra leker og aktiviteter hvor vi har prøvd ut noen av dem.

I tillegg til boka er det laget en veggversjon av de mest brukte symbolene. Disse henger i lekekroken i barnehagen, hvor han når tak i dem selv. Man tilstreber at kommunikasjonsboka skal være tilgjengelig for ham hele tiden.
