

# TACTILE READING

Braille, graphics and digital aids.  
A conference for practitioners and academics

---

**Call for Abstracts**

**Deadline: May  
15th 2020**

## **Call for abstracts:**

**We are looking for presentations and posters by practitioners and researchers**

The Tactile Reading conference in Oslo 29th and 30th of April 2021 will bring together:

- Practitioners, developers and innovators in the field of tactile reading
- Academics in various research areas
- Commercial companies

The conference will promote best practices and inspire new ideas for research, and get people together for future collaboration. Relevant topics are:

- The Neuroscience of Tactile Reading and Understanding
- An Inclusive Approach to Early Intervention in Kindergarten and School
- An Inclusive Approach to Braille and Literacy
- Tactile Graphics and 3D Material
- Tactile Reading and Universal Design

## **Call for Abstracts**

We are seeking practitioners and researchers to give presentations. The time for a presentation is 20 or 40 minutes. It is also possible to give a poster presentation. All presentations will be in English.

**Please find the submission form at [www.tactilereading.org](http://www.tactilereading.org) > Call for Abstracts.**

**Deadline: May 15th 2020**

**Please also note the pre-conference at 28th April 2021.**
